Technical Skills

Languages: C++ (DSA), Object-Oriented Programming (OOP), Javascript, Typescript, Python, SQL

Technologies: React / Next.js, Node.js, Express.js, Tailwind CSS, React native, Numpy, Pandas, Matplotlib, Seaborn, Pyspark

ML Tools: EDA, Feature Engineering, Classification, Regression, Web Scraping, Data Cleaning & Analysis

Tools: Git, Github, Jira, VS Code, AWS

Experience

MERN Stack Freelancer + ML Engineer

[Consciousleap](#), [Sveltose](#), Wtyd, [Efuel](#), [Bytedocker](#), [Marginal Classes](#), Medsbuddies, Trubuddies,
[Tapkaro](#), ConnectKaro, Raj Sarees Enterprises, [Master mind securities](#)

Remote
June 2023 - Present

- Spearheaded scalable solutions for 10+ startups, leading to consistent 25% monthly user growth.
- Integrated REST APIs & Machine Learning to optimize features, boosting user engagement by 25%.
- Implemented CI/CD to deliver on-time, high-quality products with 100% client retention.

Yash Technologies

Trainee Programmer

On-site (Indore)
January 2025 - Present

- Completed advanced Python training and topped the batch with multiple hands-on projects.
- Gained practical experience with NumPy, Pandas, PySpark, SQL, AWS, system design, and Agile methodologies.

Prowiz Analytics

React Developer Intern

Remote
June 2024 - January 2025

- Built 10+ reusable React components, improving dev velocity by 90% across all the teams.
- Designing admin panels to enhance operations by 30% across departments.

Oll.co, Mumbai | [Certificate](#)

React Developer Intern

Hybrid (Mumbai)
August 2022 - July 2023

- Increased team output by 30% through optimized web hosting and API functions.
- Completed on-site work in 1 month & remote work in 8 months, ensuring smooth remote collaboration.

Projects

Movie Recommendation System | [Link](#) | [Github](#) | [Video](#)

August 2024 – September 2024

- Description: Developed a system that recommends top 5 movies.
- Tech Stack: Next.js, Flask, BeautifulSoup (3 technologies).
- Built tool to analyze 100 IMDb reviews for trends by web scraping.

Loan Status Prediction | [Link](#)

November 2024 – December 2024

- Description: ML project predicting loan approval status with 83% test accuracy.
- Tech Stack: Python, Pandas, Scikit-learn, Matplotlib, Seaborn (4 technologies).
- Implemented data cleaning, Data Standardization, EDA, and logistic regression optimizations.

Education

Samrat Ashok Technological Institute, Vidisha

November 2021 - May 2025

Bachelors of Technology in Computer science and engineering

GPA: 8.13/10

Achievements

- Won 1st place in national level hackathons: [Smart India Hackathon 2023](#) and [Kriyeta 2022](#).
- Served as a Vice President of **Entrepreneurship-Cell SATI**; secured **AIR 12** in [NEC IIT Bombay](#).
- Placed in top 10 for [Wittyhacks 3.0](#), [Kriyeta 2.0](#) & [Parulhacks 2023](#).
- Solved **200+ DSA Problems** on [Leetcode](#) and various coding platforms.
